KishorKantha Exam Management Portal
Aug 2025 - Present
<https://www.kishorkanthacumillacity.com>

Currently working on this web-app supporting 5,000+ active users. Building **multi-role access control** (Auditor, Student, Manager, Super Admin) to manage workflows such as **exam management, student management and process automation**. Integrating **secure payment gateways** and focusing on **system optimization** for scalability and performance.

Implementing **Docker containerization** with **multi-stage deployments** to streamline CI/CD and maintain environment consistency. Applying **advanced SEO practices** for maximum reach and discoverability.

Continuously enhancing **automation and scalability** to ensure a smooth user experience across all modules.

Form Builder

Sep 2025 - Present

[🔗 https://fb.nexaus.com.bd](https://fb.nexaus.com.bd)

Currently building a **multi-tenant form builder platform** that allows teams streamline **surveys, registrations, event RSVPs and payment collection**.

Integrated **payment gateways and third-party services** for automation. Supporting **custom client domains and multi-tenant subdomains**, along with **organization and team management** featuring **multi-role access control**.
